

## **2600lb Cultivator Class Rules**

- 1) **1 Pull per Tractor**
- 2) **You are allowed two chances to move the sled**
- 3) **Tractor operator must keep one hand on the wheel at all times**
- 4) **Tractors must be stock in appearance, all factory components must be in place (PTO unless factory unavailable or deleted/Sheetmetal/etc). Factory RPM's only, low gear only**
- 5) **Minimum requirements for the wheelie bars as follows. 10" maximum above ground. The back of the wheelie bar is to extend 5" behind the tire radius. Pads = 5" square minimum, spaced minimum of 20" from outside each pad. Wheelie bars must be able to support the weight of the tractor. Jacking up the pads so the tractor is completely off the ground is a good test. FARM Club reserves the right to perform this test at its discretion**
- 6) **Due to the light weight nature of the tractors in this class all tractors must use stock hitches, no buildups allowed PERIOD! A safety chain to show height of the front of the tractor should be affixed to the front of the tractor, it should be arranged so when the front end comes up 12-16" it will come off the ground, when chain leaves ground the pull is stopped**
- 7) **No Suitcase Weights allowed, all frame weights must be secured to the frame with a minimum of 2 grade 5 bolts per weight**
- 8) **Young operators must be 12-14 and pass the drivers test or be 14-18 years old to pull**
